Join us in downtown Greenville for a Food Tour

Embark on a delightful luncheon tour through Greenville, South Carolina—a city where rich history and vibrant culinary scenes intertwine. Your culinary journey begins at Brick Street Cafe a unique dining experience with a touch of history, class, and an amazing history. Featuring dishes that blend exquisite taste with homemade perfection! Delicious!

Next, we will visit one of our newest additions, Matadors. It is a unique and modern Mexican venue located in the historic West End. They will be serving our guests three delicious tacos for lunch. Something wonderful for you to try, and hopefully, tempt you to return.

Conclude your tour at Le Petite Croissant and experience authentic French pastries created especially for our tour guests. In this charming cafe, you will experience authentic french recipes direct from a small village near Chamonoix, France. Bon Apetit!

As you savor these culinary delights, take time to explore Greenville's rich history and charming downtown, where the past and present coexist harmoniously.
